

Premium Plant-Based Wipes

Model: PW25712 | 2026 Tech Manual

BioPawPet provides high-performance eco-grooming solutions. We offer transparent production logic to ensure your brand's competitive edge.

1. Material Engineering

Technical Metrics	FSC Organic Bamboo	100% Plant-Based Viscose
Texture	Naturally antibacterial, pearl-embossed.	Extra silky, luxury feel, zero-linting.
Eco Profile	FSC-certified, 100% biodegradable.	100% plant fiber, eco-friendly.

2. Operational Logic & Value Engineering

Format	Trial MOQ	Cost Efficiency Logic
Home Pack(100ct)	1,000 Packs	Stable production run, white-label start.
Travel Pack(20ct)	3,000 Packs	Ratio logic: While 100ct represents the bulk benchmark, 20ct offers a highly accessible entry barrier with optimized run setup.

Value: Although unit production cost slightly adjusts due to mold tooling setup, it significantly lowers the overall initial capital commitment, optimizing cash flow for hotel kits.

3. Tailored Brand Solutions

Customization: Pantone color matching supported. MOQs negotiable per roadmap. We fine-tune GSM and ingredient ratios per your specific market needs.

Supply Chain FAQ

- **MOQ for 20ct packs:** The 3,000-unit MOQ covers setup waste and ensures consistent moisture to support boutique startups.
- **Compliance:** BPI and OK Compost Home certified, meeting strict AU/EU environmental standards.
- **Sample Policy:** Product samples are 100% **Free of Charge**. Client covers international freight (Freight Collect).
